HC-CARGO LED Lightbar

The new 12V LED Light bar from HC-CARGO is build in a high quality aluminum base and offers a variety of options and functions for signal warning including traffic arrow function.

The light bar comes in 2 different sizes. 110 cm & 147 cm wide, standard equipped with 4 (12 LED Xtreme) amber corner modules and 8 (6 LED Xtreme) amber flash modules (4 forward and 4 to the rear). The LED Light bar offers the possibility of 3 different Cruise modes with various different flash patterns, with the possibility of building in LED take downs (working light) or alley light.

Safety with the LED Light bar

The LED Light bar with the Xtreme LED modules offers excellent warning light, even on a bright sunny day, making the vehicle more visible to oncoming traffic. The build in traffic arrow function (with extra LED Xtreme light modules) also offers the possibility to set arrow direction away from the vehicle or arrow function center out signaling road closed.

During night time the LED Light bar offers the possibility to reduce the power to the LED Xtreme light heads with a single switch of a button, assuring no oncoming traffic will be blinded.

HC-CARGO	171760	171761
Operating Voltage	12V DC	12V DC
Fuse Recommende	40A	40A
LED View Angle	1200	1200
Lenght	110 cm	147 cm
Extra module	6	12

Customize your lightbar

The LED Light bar can be customized to your demands. Build in extra modules to generate traffic arrow function or simply to have a full light bar flashing to warn oncoming traffic.

There is also the option to build in “take downs” or working light with 6 or 9 LED which gives a good visibility around the vehicle and the option to include alley light units which gives a bright clear light to the side of the vehicle helping the operator to find his way around.

Optional for the lightbar is our:

HC-CARGO 171777 Xtreme
6 LED flash modul, amber

HC-CARGO 171778 Xtreme
12 LED flash corner modul, amber
